SUMMARY

As a driven Chemical Engineering student, I'm equally passionate about Software Development and inspired by the boundless potential of Information Technology to tackle real-world issues. My experience spans a variety of software projects, from single-page applications to complex web applications, showcasing a versatile skill set. My commitment to staying current with emerging technologies and industry trends is unwavering, and I'm consistently seeking new opportunities to expand and refine my skill set.

PROJECTS

Moviebox

<https://moviebox.netlify.app/>

- Spearheaded the development of a cutting-edge movie discovery application, enabling users to seamlessly explore trending movies and conduct specific movie searches. This included designing an intuitive user interface and interactive user experience to enhance engagement and satisfaction.
- Leveraged a powerful technological framework comprising React, React-Router, JavaScript, TMDB API, and CSS3 to build a robust application.
- Engineered a feature-rich platform that provided users with comprehensive movie details, enhancing their knowledge and decision-making. This involved integrating external data sources like the TMDB API to deliver up-to-date and accurate movie information, enriching the user experience.

Galleria D'Arte

<https://image-galleria.netlify.app/>

- Designed and developed an interactive image gallery using React and React-Router, providing users with a visually pleasing way to showcase their image collections. Implemented user-friendly features, including drag-and-drop functionality and image tagging.
- Prioritized user experience with responsive design and smooth animations. Ensured a loading state and search functionality for efficient image organization. Implemented secure authentication using Firebase.
- Demonstrated mastery of a tech stack including React, React-Router, and DND Kit, showcasing expertise in modern web development tools and frameworks to deliver a unique, functional, and visually appealing gallery.

EDUCATION

Bachelor of Science in Chemical Engineering

University of Lagos, Lagos • Akoka, Lagos • 2027

CERTIFICATIONS

Frontend Developer

I4G & Zuri Training • 2022

SKILLS

HTML, CSS, JavaScript

React Js, React-router, Redux

Tailwind CSS, Next JS, TypeScript

Restful APIs, Firebase

Effective Communication, Time Management, Problem Solving, Leadership Skills, Outsourcing
